

2024 Figure-8 Rules (20 Lap)

1. Race cars, Enduro cars and most Destruction cars allowed with the following safety rules.
2. Driver door protection mandatory. Unsafe cars will not be allowed to race.
3. Vehicles must have at least one of the following:
 - a) Option 1: A full cage.
 - b) Option 2: A steel plate at least ¼” thick that overlaps each end of the driver’s door by at least 6” and is at least 14” high and secured with a minimum 4 ½” bolts. A spreader bar (large bar, I-beam) pipe just behind seat connecting one side of the car to another at bumper height approximately 12” off the floor with at least an 8”x 8” plate attached to the bar connected to both sides of the car. Without a cage or approved spreader bar, cars are not eligible to run.
4. Radiator protection OK.
5. Fuel cells/tank must be easily accessible. No fuel lines in driver’s compartment.
6. Hoods must be pinned front and back.
7. All interior must be removed.
8. No ¾ ton pick-up trucks, full size vans or full size 4-wheel drives.
9. Bumpers must be chained to frame and have a tow-hoop, rounded on ends.
10. Driver’s door net mandatory.
11. HELMETS, FIRESUIT, GLOVES, NECK BRACE AND 5-POINT HARNESS REQUIRED.
12. D.O.T. radial tires only, no wider than 60 series.
13. No Antifreeze.
14. Reinforcement from core support through firewall allowed, using 1.75 OD and .095” wall tubing.
15. **NOTE: Race seats will be required in 2025.**
